The E-Seek M500+ allows quick and easy verification of credentials – regardless of whether a physical or digital credential is offered. This plug-and-play hybrid reader consists of the same technology used in airports across the U.S., and brings peace of mind to the commercial industry and other government agencies.

The integrated Cloud-Based Platform allows: Zero Touch Deployment, Lifecycle and Endpoint Management, Remote Management & Updates, Compliance Reporting and Business Intelligence w/Analytics. Hassle-free Over-the-Air updates. Swift processing within seconds.

Warranty

All E-Seek products include a 12-month manufacturer's warranty.*

E-Seek also offers repair services for post-warranty use.

Affordable, extended warranty options are available.

*See E-Seek's Warranty Statement for additional information.
